U. S. SAILORS LANDED IN CUBA

Landing Followed Conference Between Palma, Mr. Sleeper, And Comdr. Colwell.

HAD A VERY SALUTARY EFFECT

Insurgent Leaders Offered to Surrender- Much Surprise in Washington -No Intervention Contemplated.

Havana, Sept. 13 .- One hundred and twenty armed sailors from the United States protected cruiser Denver landed this evening and camped in front of the president's palace in anticipation of possible uprisings within or attacks upon Havana,

Six score sailors from the United States protected cruiser Denver are camped tonight in front of old La Fuerza castle, facing the Plaza de Armas, the little park in front of the presidential palace which is the seat of the Cuban government. The American flag is planted just inside the low stone coping which separates the castle grounds from O'Roilly street, which thoroughfare passes between the camp and Plaza de Armas. The sailors are armed with regulation rifles, with the exception of a few who carry revolvers or carbines. Two field howitzers and two rapid fire guns point across the

The Denver, which was originally anchored further up the bay, dropped down this evening to a position abreast of the foot of O'Rellly street and in ont of the offces of the captain of the port, so as to be conveniently near the

The sudden landing of the American sailors followed a conference between President Palma, Charge d'Affaires Sleepler and Commander Colwell this afternoon. On the occasion of the latter's formal call upon President Palma Mr. Sleeper asked the president directly whether he considered the government able to protect all American interests in Havana. The presiernment would be able to do so, but himself suggested that it might be advisable as a measure of precaution in the interest of Americans, as well as eral, to land saliors at some convenient point, suggesting the Plaza de Armas. Sleeper and Commander Colwell after a brief conference decided that the landing should be made, and this evening at 5:30 o'clock the detachment under command of Executive Officer Miller began coming ashore. Two hours later the commissary outfit fol-lowed with supper for the officers and

Questioned whether their duties on hore would be protection of American nterests or defense of the palace, and President Palma, Executive Officer Miller replied that if the town should be attacked or if an uprising occurred in the city they probably would have something to do regardless of the question as to who attacked.

After reading an Associated Press dispatch from Washington in which Seey, of the Navy Bonaparte was quot-ed as saying that there would be no danding of United States forces in Cuba except in the event of extreme and un-restrained rioting, Commander Colwell said to the Associated Press:
"I have landed a force after consulta-

with those best advised as to the of President Palma himself, who in-formed Mr. Sleeper and myself that he gravely doubted the ability of the Cuban government to protect American property and persons. President Palma did not suggest this location for our forces; I selected it because in my judgment it is the best strategical point and commands the two principal business streets of Havana. I am not con-sidering intervention or the protection of the palace or the president, but am simply being in readiness to protect American interests. I have telegraphed these facts to Secy. Bonaparte and also the fact that I have offered asylum or the Denver for Americans who may desire to seek such safety." Colwell suggested to

night that if quiet continued the sailors from the Denver might return on board President Palma, however, urgently requested that they remain. The president expressed satisfaction with the influence their presence was producing, and said he considered it a guarantee against an attack on or an uprising in Havana.

The general impression here seems to that It is the intention of the United States not only to protect American interests, but also the government of President Palma. The presence in the city of American sailors has had the effect of creating a feeling of compara-tive security against attack from without or from an internal uprising ports current here today were that the worst elements were planning to set fires under the cover of which robberjes might be committed. It was also reported that insurgents in considerable numbers were approaching Havana in several directions. newspapers this evening com-

mented favorably upon the appearance of American warships in Cuban waters. A dispatch from Clenfuegos says that the United States gunboat Marietta has debarked a detachment there. Clenfuegos is besieged by insurgents and some of the fortifications have been dam-

OFFER TO SURRENDER.

Havana, Sept. 13.-Late this evening Commander Colwell of the United States steamship Denver was approached by an accredited emissary of Alfred Zayas, president of the Liberal party, and Gen. Loyanz dei Castillo, commander of the insurgent forces in Havana province, with a signed offer from each to surrender their comwell on condition that the United States government, through him, guarntee them fair judicial trials.

Commander Colwell, accompanied by Charge d'Affaires Sleeper, immediately carried the proposition to President alma. The president was immensely

pleased and asked Commander Colvell if he would accept the surrenders. The latter replied in the negative, but advised the president to communicate with the Washington government, which was done.

ORDERED TO RETURN.

Washington, Sept. 13.-It was officially announced-here late tonight that the sailors who were landed at Havana from the American cruiser Denver have been ordered to return to their vessel immediately, save for a small guard which will be left at the Amer-ican legation. This action followed the receipt of an official report by Act. Secy. of State Bacon from Mr. Sleeper, the Amrican charge d'affaires at Hava-

na, regarding the landing.

The report was not made public, but It was announced officially shortly af-terward that the sallers were landed from the Denver solely for the protec-tion of the lives and property of American citizens; that such action was in pursuance of a discussion between Mr. the belief that it was a wise precaution, looking to the protection of the lives and property of Americans. There was no intention, it is stated, to do otherwise than to safeguard American inhabitants, and the services of the ailors were to be utilized only in case of disorders within the city threatened such inhabitants. That the landing in any way contemplated the protection of either the Cuban government or the insurgent propaganda, President Palma or any other persons than Americans citizens was disclaimed officially and it was pointed out that this fact could not be emphasized too strongly.

The landing of 120 of the blue jackets of the American protected cruiser Den-ver on Cuban soil and their camping in front of President Palma's palace in Havana tonight caused the most profound interest here. It was stated on official authority that the instructions to the American officials were such that the armed force would not have been sent ashore from the Denver upon the initiative of the American naval commander, but only upon a request com ing through Mr. Sleeper, the Amrican harge d'affaires, who perhaps is better acquainted with the internal situation n the island than any naval officer. had been the expressed hope of the Washington officials that no such eventuality as that which has neces-sitated the landing of the sailors would

Government officials declined to com ment upon the action. Acting Secy. of State Bacon left on a late train tonight for New York for a conference tomor-

row with the president.
The Denver has been ordered to Cuba for the protection of American interests, but it has been intimated that one furpose was to afford President Palma aid in case his life should be in jeopardy.

NO INTERVENTION.

Washington, Sept. 13.-Mr. Sleeper's cablegram reported the landing of the sailors and explained that there was no purpose of protection of anybody o anything except American lives and property. The announcement that the property. The announcement that the sailors had been ordered back to the ship followed from the White House. soon after the receipt of Mr. Sleeper's official report.

That the landing was a complete surprise to the government here was evi-dent. That it was not made under instructions from Washington also was made plain, but the reasons that actuated Commander Colwell were set forth in his dispatch. It was distinctly stated today that the quiet preparation of other vessels looking to possible dispatch to Cuba does not contemplate in-tervention; that there will be no landing parties except in the event of riot-ing, when international law demands restraining action by any neutral ship

present in port. But it is realized that by some unex-pected act of either contending force the American government might be

Shortly afterward the secretary entered into telephone com-munication with Washington.

The news conveyed in the Associated Press dispatches from Washington stating that an order had been issued recalling the naval landing party, is believed to have been the outcome of Mr. Bonaparte's conversation over the telephone. Secy. Bonaparte retired earleaving orders that he was not to be disturbed.

HURRY ORDERS.

Norfolk, Va., Sept. 13 .- Several hurry orders were received from Washington today relative to the dispatching of

Orders were issued by the commandants of the cruisers Newark. Tacoma and Cleveland that all members of their crews must report on their respective vessels before 12 o'clock to-night. The cruiser Newark was ordered to take on board supplies for a six months' cruise.

The Newark returned from Baltimore today, where she participated in the jubilee celebration. She was to have jubilee celebration. She was to have been fitted up here and sent to Char-leston, S. C., as a station ship. Her officers were to have been granted 30 days leave of absence. The fact that the department intends to rush the Newark to Cuba without waiting for needed repairs, is considered important, Eight hundred tons of coal were placed | cers and enlisted men by doing away

The Tacoma and Cleveland are being supplied with coal, rations and an unusually large amount of ammunition. Orders to select marines from the barracks here were also received and men were being assigned to all three cruisers today. It is expected that the Tacoma will get away from the navy yard possibly before daybreak tomor-row. The Cleveland may leave in the afternoon and the Newark Saturday.

ADMIRAL EVANS SAYS SAILORS WERE ILL TREATED.

Washington, Sept. 13.-Rear Admiral Evans has sent to the secretary of the vy a report in which he vigorous-criticizes the treatment the sailors ly criticizes the treatment the sailors of his fleet received while at Portland. Me. He claims they were beaten by the police and refused admittanc to places of amusement because they were their uniforms.

Secy. Bonaparte said today that he would make recommendations to Congress for legislation to meet such conditions, and also indicated that would not be the policy of the depart-ment to go out of its way to send vessels to places where seamen are illtreated.

Secy. Bonaparte believes that a law can be passed which will protect the men of the navy and army against such treatment as complained of. The report of Admiral Evans, dated at Bar Harbor, Sept. 5, is in part as

"During the recent visit of the Iowa, Indiana and the second torpedo floatilla to Portland. Me., which visit was made at the suggestion of the residents of Maine, many of the men from the In-diana were treated with great brutality by the police and by a civilian in the presence of the police, from which I may infer that he was a policeman in plain clothes.

DENIAL BY PORTLAND'S MAYOR. Portland, Me., Sept. 13 .- Concerning the report of Rear Admiral Evans to the secretary of the navy with reference to alleged illtreatment received by sailers, Mayor Nathan Clifford said today that an investigation of the matter at the time indicated that the men had suffered no injusice. The mayor had suffered no injusice. The mayor said that the city desired that the ma-rines have as much leeway as the po-lice could possibly give. Only one ar-rest was made and that was for intox-

leation and disturbance.

Mayor Clifford said also that he made arrangements for the admission of marines to a skating rink at a pleasure resort, which was the only place refusing to let them in, and that the police deny that any sallors had been

Chicage. Sept. 12.—Today witnesses were summoned before the city civil service commission to give evidence relative to the charges that have been preferred by Chiefor Police Collins against Inspector Patrick J. Lavin, who is accused of conniving at crimes in his district while a police captain.

The chief evidence against Lavin was given by Patrick P. Mahoney, a former patroiman under Lavin. Mahoney testified that he was intimately acquainted with a lavelles of Lavin, who says a p.

lice sergeant, and that Patrick J. Lavin, then a captain, called him into a private room in the police station and declared that he was about to take the examination for promotion to police inspector, and that it would aid him in securing this promotion if he could de a good job of police work hefore the examination was held. Lavin then said, according to the witness:

Mahoney said that he agreed to the proposition of Lavin and made arrangements with James Clark and Thomas Bary to rob the place. Several boxes of jewelry, according to the witness, were carried from the place, and some money was secured, which was divided between the men and hinself. The jew elry was concealed in the basement of his own house, Mahoney declared.

The next morning he went to the station and the captain whispered to him, asking if he had "secured the stuff." He whispered that he had, and the captain then asked him in a loud voice if he had seen any suspicious characters around the jewelry store the night before. "I told him," said the witness "about dividing up the money, and he laughed, and said the Dutchman would be lucky if he got part of the jewelry back."

Bernard J. Hagaman, the jeweler, who was called the "Dutchman" by the witness, proceeded Mahoney on the stand and said that his place had been robited as Mahoney afterwards described and said that of the jewelry taken, some, valued at \$1,400, had never been returned.
